

# SpiritStation

## SpiritStation

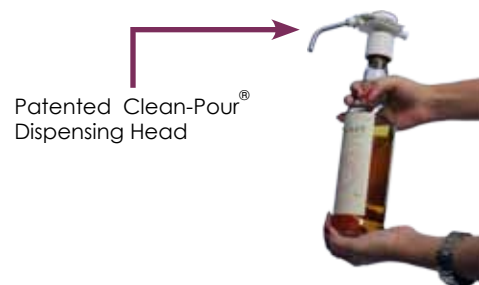

Napa Technology's renowned dispensing technology is now available for spirits and batch cocktails with the introduction of the SpiritStation- the newest addition to the product family.

The SpiritStation provides the most effective, accurate, contamination free spirit delivery system in the world. The automated and programmable pouring options allow restaurants, bars and clubs to customize their service based on the needs and demands of their business.

Operators are using the technology to provide consistent and regulated pours of spirits and batch cocktails as well as to create on-demand flights and sampling.

### Standard Features

- Three Customizable Pour Sizes Options
- (5) Clean-Pour Dispensing Heads
- State-of-the-art Thermo Electric Cooling System
- High Resolution LCD Displays
- Safety Lock Features
- Designed for Both Built-In and Countertop Applications
